| <b>Research Assistant</b><br><i>Atmospheric Science Graduate Program, Rutgers University–New Brunswick</i>           | 2010 – 2014    |
| <b>Teaching Assistant</b><br><i>Planet Earth and Planet Earth Lab, Rutgers University–Newark</i>                     | 2007 – 2010    |

### HONORS

1. Elected Chair, Gordon Research Conference on Climate Engineering, 2026.
2. Appointed Member, Scientific Advisory Group for the Treaty on the Prohibition of Nuclear Weapons, 2024 - 2026.

3. Global Peace and Health Award from the International Physicians for the Prevention of Nuclear War and the Boston Chapter of Physicians for Social Responsibility, October 1, 2022.

## GRANTS

1. Environmental Defense Fund (EDF), (PI), “Attributing Aerosol-Induced Crop Yield Changes: Disentangling Light Partitioning Effects from Climate Cooling Using Observations and Crop Models,” 2025–2026, \$230,000.
2. Future of Life Institute, (PI), “The Cascading Impacts of Postnuclear Ultraviolet Radiation on Photosynthesizers in the Earth System,” October 11, 2023 - October 13, 2026, \$249,888.
3. Future of Life Institute, (co-PI, Alan Robock, PI), “Impacts of Nuclear War on Agriculture and Global Food Security,” September 1, 2023 - August 31, 2026, \$500,000.
4. NSF, ENG-2028541 (PI), “Collaborative Research: Global Agricultural Impacts of Stratospheric Aerosol Climate Intervention,” October 1, 2020 - September 30, 2022, no-cost extension to September 30, 2023, \$266,842; supplemental funding with additional extension to March 31, 2024, \$52,802. Total funding award: \$319,644.
5. NSF, AGS-2017113 (co-PI, Alan Robock, PI), “Stratospheric Aerosol Climate Intervention Designed to Minimize Negative Impacts,” July 1, 2020 - June 30, 2023, no-cost extension to June 30, 2024, \$714,708; supplemental funding with additional extension to December 31, 2025, \$39,000. Total funding award: \$753,708.
6. Safe Climate Research Initiative of SilverLining, Gift to Rutgers Impact Studies of Climate Intervention (co-directed by Lili Xia and Alan Robock) to study solar climate intervention, August 20, 2020, \$400,000, and February 24, 2021, additional \$100,000.

## TEACHING EXPERIENCE

### Courses Taught (undergraduate, Rutgers University–New Brunswick)

|                                                                             |                      |
|-----------------------------------------------------------------------------|----------------------|
| Climate Dynamics (11:670:461)                                               | Fall 2025, Fall 2026 |
| Interdisciplinary Honors Seminar (01:090:297), Honors College               | Spring 2026          |
| “Climate Intervention: Where Science Meets Ethics” (course developed by me) |                      |
| Earth’s Changing Climate (11:670:102)                                       | Spring 2025          |

### Teaching Assistantships

|                                                              |             |
|--------------------------------------------------------------|-------------|
| Planet Earth and Planet Earth Lab, Rutgers University–Newark | 2007 – 2010 |
|--------------------------------------------------------------|-------------|

### Guest Lectures

1. Physics and Ethics (undergraduate), Department of Physics, Universität Hamburg, taught by Dr. Moritz Kütt, Summer 2026.
2. Science and Global Security: From Nuclear Weapons to Artificial General Intelligence (SPI/MAE 353, undergraduate), Princeton University, taught by Dr. Alexander Glaser, Fall 2025.
3. First-Year Seminar (FRS 160, undergraduate), Princeton University, taught by Dr. Zia Mian, Fall 2025.
4. Earth Systems: Science and Policy (ENVR 300, undergraduate), University of Delaware, taught by Dr. Kyle Davis, Fall 2025.
5. Modeling of Climatic Change (16:107:544, graduate), Rutgers University–New Brunswick, taught by Dr. Alan Robock, Fall 2020, 2022, and 2024.

## MENTORING EXPERIENCE

### Ph.D. Students Supervised

|               |                 |
|---------------|-----------------|
| Shu Xu        | current student |
| Nina Grant    | 2026            |
| Brendan Clark | 2024            |

### M.S. Students Supervised

|                  |      |
|------------------|------|
| Brendan Clark    | 2022 |
| Mahjabeen Rahman | 2023 |
| Nina Grant       | 2023 |

### Undergraduate Students Supervised

|                 |                 |
|-----------------|-----------------|
| Jack W. Harwood | current student |
| Charles J. Lee  | 2025            |

### Postdocs Supervised

|             |             |
|-------------|-------------|
| Sam Rabin   | 2021 – 2023 |
| Jyoti Singh | 2021 – 2024 |

### Serving on Ph.D. Committees

|                  |      |
|------------------|------|
| Corey J. Gabriel | 2015 |
| Joshua Coupe     | 2020 |

## INVITED TALKS

1. Recent research on food production after nuclear war scenarios (Invited talk for the Informal Expert Consultation to the Independent Scientific Panel on the Effects of Nuclear War, New York, December 2,

- 2025)
2. Accelerating SRM research: Scientific program and new initiatives (Invited talk at Fudan University, Shanghai, China, August 20, 2025)
  3. Geoengineering research: History and current landscape (Invited talk at Institute of Geology, China Earthquake Administration, Beijing, China, August 5, 2025)
  4. Geoengineering research: History and current landscape (Invited talk at Beijing Normal University, Beijing, China, August 4, 2025)
  5. Geoengineering research: History and current landscape (Invited talk at China Agricultural University, Beijing, China, August 2, 2025)
  6. Accelerating SRM research: Scientific program and new initiatives (Invited talk at Institute of Atmospheric Physics, Chinese Academy of Sciences, Beijing, China, July 31, 2025)
  7. Geoengineering research: History and current landscape (Invited talk at Institute of Tibetan Plateau Research, Chinese Academy of Sciences, Beijing, China, July 31, 2025)
  8. Climate adaptation, mitigation, and intervention (Invited lecture at Zhejiang University, Hangzhou, Zhejiang, China, July 24, 2025)
  9. Stratospheric aerosol impact on agriculture (Invited talk at the 2025 International Symposium on solar radiation management, Xi'an, Shaanxi, China, July 21, 2025)
  10. Recent research on impacts of nuclear war on global food security (Invited talk at the United Nations during First Committee 2024 on nuclear war impacts and the role of scientific community, New York City, New York, October 9, 2024)
  11. Nuclear winter (Invited seminar at Illinois State University, Normal, Illinois, September 24, 2024)
  12. The impacts of climate change and intervention on agriculture and food security (Invited lecture at Zhejiang University, Hangzhou, China, July 23, 2024)
  13. Impacts of nuclear war on food security (Invited talk at Students for Nuclear Disarmament, online, August 10, 2024)
  14. Climate impacts of stratospheric aerosol injection climate intervention (Invited talk at Institute of Atmospheric Physics, Chinese Academy of Sciences, Beijing, China, July 22, 2024)
  15. Impacts of nuclear war on food security (Invited talk at Public Health in a Nuclear War hosted by Disarmament and Security Center at New Zealand, online, February 8, 2024)
  16. Impacts of Nuclear War on Climate and Food Security (Invited talk at Princeton SGS School, Princeton, New Jersey, October 13 - October 17, 2023)
  17. Agricultural Impacts of Stratospheric Aerosol (Invited seminar talk at University At Albany, Albany, New York, September 18, 2023)
  18. Impacts of Solar Radiation Management (Invited talk at the Quadrature Climate Foundation New Climate Reality and SRM Workshop, online, June 6, 2023)
  19. Mass Starvation? Impacts of Nuclear War on the Climate and Food Security (Invited talk at German Physics Society Spring Meeting on Nuclear Winter, presented by Kim Scherrer, Dresden, Germany, March 22 - March 24, 2023)
  20. Agriculture as a Climate Intervention Target (Invited talk at the Second Community Climate Intervention Strategies Workshop, NCAR, Boulder, Colorado, October 31 - November 2, 2022)
  21. Agricultural impacts of stratospheric aerosol injection climate intervention (Invited talk at Stratospheric Aerosol Intervention - Ecology Meeting, Newry, Maine, June 22 - 24, 2022)
  22. Agricultural impacts of stratospheric aerosol (Invited talk at Rutgers University New Brunswick, Center for Agricultural Food Ecosystems, February 25, 2022)
  23. Agricultural impacts of solar radiation management (Invited online talk at Indiana University Bloomington, Department of Earth and Atmospheric Sciences, March 15, 2021)
  24. Agricultural impacts of solar radiation management (Invited online talk at Rutgers University New Brunswick, Department of Environmental Sciences, February 26, 2021)
  25. SRM impacts on vegetation and agriculture (Invited talk at Ecosystem Response to SRM workshop, University of Minnesota Twin Cities, MN, U.S., November 1, 2019)

26. How to study SRM impacts on agriculture? (Invited talk at the second Geoengineering Research Consortium meeting, Harvard University, Boston, September 30, 2019)
27. Solar radiation management impacts on agriculture (Invited talk at the first Geoengineering Research Consortium meeting, NCAR, Boulder, Colorado, May 20, 2019)
28. Stratospheric Sulfate Geoengineering Impacts on Agriculture and Air Pollution (Invited presentation at Gordon Research Conference - Climate Engineering; Newry, Maine, July 23 - 28, 2017)
29. Sulfate Injection Geoengineering Impacts on Agriculture (Invited talk at International Workshop on Climate Engineering Toward (non-) Research Collaboration in the Asia- Pacific region, University of Tokyo, Tokyo, Japan, March 22 - 23, 2016)
30. How Does Stratospheric Sulfate Geoengineering Affect Food Supply in China (Invited talk at Beijing Normal University, Beijing, China, December 28, 2010)

### CONFERENCE PRESENTATIONS (first author)

1. Enabling global solar radiation modification impact research: updates from the Degrees Modeling Fund and the GRID-CC data platform (Oral presentation at the American Geophysical Union Fall Meeting, New Orleans, Louisiana, December 15 - 19, 2025)
2. Representation of Diffuse Radiation in Climate Models under Stratospheric Aerosol Intervention (Poster presentation at the American Geophysical Union Fall Meeting, San Francisco, California, December 11 - 15, 2023)
3. Impacts of Stratospheric Aerosol Intervention on Surface Air Pollutants (Oral presentation at CESM Land Model Working Group Meeting, June 13, 2023)
4. Impacts of Stratospheric Aerosol Intervention on Surface Air Pollutants (Oral presentation at the American Geophysical Union Fall Meeting, Chicago, Illinois, December 12 - 16, 2022)
5. Impacts of sulfate injection climate intervention on particulate matter with diameter less than 2.5  $\mu\text{m}$  (Poster presentation at the Gordon Research Conference Climate Engineering, Newry, Maine, June 26 - July 7, 2022)
6. Natural vegetation responses in Geoengineering Model Intercomparison Project (GeoMIP) G6 experiments (Poster presentation at American Geophysical Union Fall Meeting, New Orleans, Louisiana, December 12 - 16, 2021)
7. Natural vegetation responses in Geoengineering Model Intercomparison Project (GeoMIP) G6 Experiments (Oral presentation at Climate Engineering in Context, Online, October 4 - 8, 2021)
8. Assessing terrestrial biogeochemical feedbacks in a geoengineered climate (Oral presentation at American Association for the Advancement of Science Annual Meeting, Online, February 8 - 11, 2021)
9. Diffuse radiation impact on vegetation under Geoengineering Model Intercomparison Project G6 experiments (Poster presentation at American Geophysical Union Fall Meeting, Online Everywhere, December 1 - 17, 2020)
10. Sulfate geoengineering impacts on agriculture (Oral presentation at American Meteorological Society; Boston, Massachusetts, January 12 - 16, 2020)
11. Impacts of nuclear war on terrestrial carbon processes (Poster presentation at American Geophysical Union Fall Meeting, San Francisco, California, December 9 - 13, 2019)
12. Impacts of Sulfate Injection Geoengineering on Particulate Matter with Diameter less than 2.5  $\mu\text{m}$  (with Alan Robock; presented by Alan Robock; the ninth GeoMIP workshop, Beijing Normal University, Beijing, China, August 14 - 17, 2019)
13. Impact on Agriculture from Surface Ozone and Ultraviolet Radiation Changes due to Stratospheric Sulfate Injection (Poster presentation at American Geophysical Union Fall Meeting, Washington, DC, December 10 - 14, 2018)
14. Impacts of Stratospheric Sulfate Geoengineering on PM2.5 (Poster presentation at the

- Stratosphere-troposphere Processes and Their Role in Climate 2018 General Assembly, Kyoto, Japan, October 1 - 5, 2018)
15. Impacts of Stratospheric Black Carbon on Agriculture (Oral presentation at American Geophysical Union Fall Meeting, New Orleans, Louisiana, December 11 - 15, 2017)
  16. Impacts of Solar Radiation Management on Surface Ozone (Oral presentation at Community Earth System Model Winter Group Meetings, Boulder, Colorado, February 27 - March 2, 2017)
  17. Impacts of Solar Radiation Management on Surface Ozone (Oral presentation at American Geophysical Union Fall Meeting, San Francisco, California, December 12 - 16, 2016)
  18. A Comparison of Sulfate Injection Geoengineering and Solar Reduction Geoengineering (Oral presentation at the Sixth GeoMIP Meeting, University of Oslo, Oslo, Norway, June 21 - 22, 2016)
  19. Stratospheric Sulfate Geoengineering Impacts on Global Agriculture (Poster presentation at American Geophysical Union Fall Meeting, San Francisco, California, December 14-18, 2015)
  20. Solar Radiation Management and Its Agriculture Impact (Oral presentation at Chinese Geoengineering Workshop, Beijing Normal University, Beijing, China, August 26 - 28, 2015)
  21. Solar Radiation Change from G4SSA and Its Agricultural Impact (Oral presentation at the Fifth GeoMIP Workshop, National Center for Atmospheric Research, Boulder, CO, July 22 - 23, 2015)
  22. Two Possible Future Climate Scenarios for AgMIP-GGCM - Sulfate Injection Climate Intervention and Regional Nuclear War (Poster presentation at Our Common Future under Climate Change meeting, Paris, France, July 7 - 10, 2015)
  23. Global Agricultural Impact from the G4 Specified Stratospheric Aerosol (G4SSA) GeoMIP Simulation Using the CESM-CAM4 Climate Model (Oral presentation at 26th General Assembly of the International Union of Geodesy and Geophysics, Prague, Czech Republic, June 26 - July 2, 2015)
  24. Climate Sensitivity of DSSAT under Different Agriculture Practice Scenarios in China (Poster presentation at American Geophysical Union Fall Meeting, San Francisco, California, December 15 - 19, 2014)
  25. Impacts on Chinese Agriculture of Geoengineering and Smoke from Fires Ignited by Nuclear War (Poster presentation at American Geophysical Union Fall Meeting, San Francisco, California, December 9 - 13, 2013)
  26. Impacts of Balancing CO<sub>2</sub> Increases with Solar Insolation Reduction (from the GeoMIP G2 scenario) on Chinese Agricultural Production (Oral presentation at the Geoengineering Modeling Intercomparison Project (GeoMIP) workshop, Institute for Advanced Sustainability Studies, Potsdam, Germany, April 15 - 16, 2013)
  27. Agriculture Impacts of Regional Conflict (Oral presentation at European Geosciences Union General Assembly, Vienna, Austria, April 7 - 12, 2013)
  28. Impacts of Stratospheric Sulfate Geoengineering on Chinese Food Supply (Poster presentation on American Geophysical Union Fall Meeting, San Francisco, California, December 3 - 7, 2012)
  29. Impacts of Geoengineering and Nuclear War on Chinese Agriculture (Poster presentation on American Geophysical Union Fall Meeting, San Francisco, California, December 5 - 9, 2011)
  30. Agricultural Response on Stratospheric Geoengineering (Oral presentation on the second Keck Institute for Space Studies Geoengineering Workshop, California Institute of Technology, Pasadena, California, November 15 - 18, 2011)
  31. Agricultural Feedback on Stratospheric Sulfate Geoengineering (Poster presentation on World Climate Research Programme Open Science Conference, Denver, Colorado, October 24 - 28, 2011)
  32. Impacts of Nuclear War on Agriculture in China (Oral presentation on the Severe Atmospheric Aerosol Event Conference, Max Planck Institute, Hamburg, Germany, August 11 - 12, 2011)
  33. Geoengineering Impacts on Agriculture - Forced by ModelE and CAM4 (Poster presentation on 16th Annual CESM workshop, Boulder, Colorado, June 20 - 23, 2011)
  34. Impacts of Stratospheric Sulfate Geoengineering on Food Supply - Update (Oral presentation on Keck Institute for Space Studies Geoengineering Workshop, California Institute of Technology, Pasadena, California, May 23 - 26, 2011)
  35. Impacts of Stratospheric Sulfate Geoengineering on Food Supply (Oral presentation on GeoMIP workshop,

Rutgers University, New Brunswick, NJ, February 10 - 12, 2011)

36. Effects of Stratospheric Sulfate Geoengineering on Food Supply in China (Oral presentation on American Geophysical Union Fall Meeting, San Francisco, California, December 13 - 17, 2010)
37. Chemical Composition and Size Distribution of Coastal Aerosol Observed on the US East Coast (Oral presentation at American Geophysical Union Fall Meeting, San Francisco, California, December 15 - 19, 2008)

## SERVICE

1. Member, Steering Committee, Geoengineering Model Intercomparison Project (GeoMIP), 2026 - present.
2. Chair of Gordon Research Conference on Climate Engineering, 2026.
3. Review panel for the call for proposals "Understanding the potential impacts of Solar Radiation Modification on Sub-Saharan Africa," the University of Exeter and the Advanced Research and Invention Agency (ARIA), 2026.
4. Vice Chair of Gordon Research Conference on Climate Engineering, 2024.
5. Member of the Scientific Advisory Group for the Treaty on the Prohibition of Nuclear Weapons, 2024 - 2026.
6. Planning committee of the National Academies of Sciences, Engineering, and Medicine for a workshop on Climate Intervention in an Earth System Science Framework, 2023.
7. NOAA review panel for "Atmospheric aerosols and their potential roles in solar climate intervention methods," March 30-31, 2022.
8. Member, Steering Committee, Geoengineering Modeling Research Consortium (<http://www.cgd.ucar.edu/projects/gmrc/>), 2019-2022.
9. Member, Scientific Advisory Team, Developing Country Impacts Modeling Analysis for SRM (DECIMALS) Fund, 2017-2025.
10. Reviewer for journals, e.g., Nature Climate Change, Journal of Geophysical Research, Atmospheric Chemistry and Physics, and Earth's Future.
11. Convener for sessions at the American Geophysical Union Fall Meeting in 2018, 2019, 2021, 2024, and 2025.
12. Convener for sessions at the Asia Oceania Geosciences Society Annual Meeting in 2025 and 2026.
13. Convener for sessions at the European Geosciences Union Annual Meeting in 2025 and 2026
